

Skin Cancer Masterclass

Residents Course | 11 May 2022 | Ljubljana, Slovenia

Description

This intense full-day course aims to provide basic and practical knowledge on the diagnosis and treatment of skin cancers. The sessions will cover management of melanoma, keratinocyte cancers (actinic keratosis, squamous cell carcinoma and basal cell carcinoma) and other rare skin cancers (Merkel cell carcinoma, Kaposi sarcoma, cutaneous lymphomas). The teaching program will bring up-to-date guidelines and evidence-based practice, provided by a panel of European leading experts in the field of onco-dermatology. Pre-course training materials will be provided to participants before attending the live lectures, to optimise their learning experience. The live courses will consist in 20-minutes lectures focusing on key points highlighted by experts on each topic, combined with three interactive roundtables bringing up together speakers and attendees. These unique roundtables will allow participants to test their diagnostic knowledge based on «dermoscopy quizzes» and allow speakers to share their experience around real-life case studies selected from their practice. Post-course online tests will allow attendees to test their knowledge and skills acquired during the training.

Learning Objectives

- Identify skin cancers based on clinical and dermoscopy features
- Guide the management of skin cancers according to updated European guidelines
- Recognise complex situations and discuss different strategies based on case studies

Faculty

Speakers: Mahtab Samimi, Myrto Trakatelli, Zoe Apalla, Nicole Basset Seguin, Claus Garbe, Emmanuella Guenova, Roland Kaufmann, Harald Kittler, Christian Posch, Eduardo Nagore

Programme

08:00-08:05 Welcome address - Mahtab Samimi, Myrto Trakatelli

Introduction

08:05-08:25 Epidemiology of skin cancer and the role of UV-Exposure - Claus Garbe

Keratinocyte Carcinomas - Part 1

08:25-08:45 Actinic Keratosis (including field cancerization) - Zoe Apalla

08:45-09:05 Dermoscopy of Keratinocyte carcinomas - Harald Kittler

09:05-09:25 Principles of Surgical Management of Keratinocyte Carcinomas – R. Kaufmann

09:25-09:50 Margin control surgery for Keratinocyte carcinomas - Myrto Trakatelli

Keratinocyte Carcinomas - Part 2

09:50-10:10 Guidelines and treatment of SCC - Roland Kaufmann

10:10-10:30 Guidelines and treatment of BCC - Myrto Trakatelli

10:30-10:50 Management of high risk difficult to treat SCC - Mahtab Samimi

10:50-11:10 Management of advanced/ difficult to treat BCC - Nicole Basset Seguin

11:10-11:25 Coffee Break

11:25-12:15 Case quizzes and roundtable – Keratinocyte carcinoma

12:15-13:00 Lunch Break

Melanoma

13:00-13:20 Genetic predisposition in melanoma (covering indications for genetic testing, current genes involved in genetic predisposition and their implications) - Eduardo Nagore

13:20-13:40 Dermoscopy of melanoma - Harald Kittler

13:40-14:00 Surgical management of cutaneous melanoma (covering surgery of the primary tumor, update on SLNB indications and CLND) - Eduardo Nagore

14:00-14:20 Melanoma management and guideline recommendations -Claus Garbe

14:20-14:40 Advanced melanoma treatment - Christian Posch

14:40-15:20 Case quizzes and roundtable - Melanoma

15:20-15:30 Coffee Break

Other Cancers

15:30-15:50 Cutaneous Lymphoma: Basics - Emmanuella Guenova

15:50-16:10 Merkel Cell Carcinoma - Mahtab Samimi

16:10-16:30 Kaposi Sarcoma - Christian Posch

16:30-16:50 Other rare cancers - Nicole Basset Seguin

16:50-17:10 Dermoscopy of rare cancers - Zoe Apalla

17:10-17:30 Cutaneous Lymphoma: what's new - Emmanuella Guenova

17:30-17:45 Coffee Break

17:45-18:25 Case quizzes and roundtable - Other cancers

18:25-18:30 Conclusions
