

Trichoscopy

Residents and specialists Course | 28-30 November 2022 | Porto, Portugal

Description

Trichoscopy (hair and scalp dermoscopy) is an easy in-office diagnostic method for hair and scalp diseases. Any handheld or digital dermoscope may be used to perform trichoscopy. Trichoscopy may be applied in non-cicatricial and cicatricial alopecia, as well as in diseases of internal organs associated with hair loss. This course is designed for who has an interest in hair disorders. All speakers are authors of multiple publications about hair loss and trichoscopy.

Learning Objectives

- 1) Be able to perform trichoscopy
- 2) Improve differential diagnosis of hair loss

Faculty

Chair: Lidia Rudnicka

Speakers: Adriana Rakowska, Anna Waskiel-Burnat, Ana Pedrosa, Asmahen Souissi

Tutors: Nuno Gomes, Ana Paula Cunha, Miguel Costa e Silva, Patrícia Amoedo

Programme

Monday 28 November 2022

15:00-15:30	Introduction - Lidia Rudnicka
