

# Sexually Transmitted Infections

Residents and specialists Course | 28-30 November 2022 | Porto, Portugal

## Description

The Course will provide actual information regarding the epidemiology, recognition of the clinical signs and symptoms, laboratory diagnosis and treatment of the frequent encountered STIs. Monkeypox is also included in the program. Workshops will develop skills to enhance the performance of history taking, simple but useful laboratory techniques and will provide tips for the management of chronic genital viral infections. Participants will discuss their cases with experienced panelists.

## Learning Objectives

1. To improve in the manage of difficult STI patients
2. To Learn to recommend and assess the laboratory investigations for an accurate diagnosis
3. To be able to prescribe the most efficient treatment adapted to the case.

## Faculty

Chairs: George-Sorin Tiplica, Michael Waugh
