

Comprehensive Melanoma Management in Clinical Practice

Specialists and Residents Course | 08-10 March 2023 | Seville, Spain

FACULTY

Course Chair: David Moreno-Ramírez

Speakers: Lara Ferrandiz, Eduardo Nagore, Alvaro Sanchez Leiro

Tutors: Teresa Ojeda, Noemí Eirís, Almudena Fernández

COURSE DESCRIPTION

The “Comprehensive Melanoma Management in Clinical Practice” course offers an update on the diagnostic and therapeutic approach to melanoma patients. From early diagnosis to surgical procedures for primary and advanced melanoma to the current use of systemic therapies, the integrated management of melanoma patients is discussed during this 3-day course held in a clinical dermatology department.

The programme includes

- update sessions on diagnostic and therapeutic topics,
- hands-on workshops on diagnostic procedures,
- discussion sessions on clinical cases provided/presented by the participants.

The course also aims at sharing the experiences of other centers in the management of melanoma patients.

Finally, participants will benefit of an outstanding networking opportunity with other European dermatologists dedicated to melanoma patients’ management.

LEARNING OBJECTIVES

1. Identify the morphological, genetic, and molecular bases that, applied to clinical practice, help in early diagnosis of primary melanoma and tumour metastasis.
2. Gain a thorough knowledge of the onco-pathological and immunopathological bases of each of the diagnostic and therapeutic options available for melanoma patients care.
3. Become familiar with the diagnostic and therapeutic procedures, both medical and surgical, currently available in clinical practice for the management of any clinical settings in melanoma patients.
4. Transfer to clinical practice the knowledge acquired on early diagnosis, and medical and surgical treatment of melanoma patients.
5. Make therapeutic decisions in challenging clinical situations by integrating the available therapeutic procedures and after an adequate assessment of the risks and benefits of each of the options.

PROGRAMME

Wednesday, 08 March 2023

08:30-09:00 Welcome and course presentation

Early diagnosis, genetics and biomarkers

09:00-10:00 Dermoscopy for malignant melanoma screening and differential diagnosis

Alvaro Sanchez Leiro

10:00-11:00 Melanoma Genetics and biomarkers. Clinical implications

Eduardo Nagore

11:00-11:30 Discussion, Q&As

11.30-12.00 **Coffee Break**

12:00-14:30 Digital Center Workshop Lunch

Teresa Ojeda, David Moreno, Noemí Eiris, Alvaro Sanchez Leiro

14:30-15:30 Melanoma Clinical Practice Guidelines

David Moreno

15.30-17:00 Melanoma Grand Round - First Round Cases Presentation

Lara Ferrándiz, Almudena Fernández

17:00-17:30 Day 1 - Final Remarks

David Moreno

Thursday, 09 March 2023

08:30-09:00 Melanoma Board Meeting

Lara Ferrándiz, Almudena Fernández

Surgical Approach to Melanoma Patients

09:00-10:00 Surgery for Primary Malignant Melanoma

Eduardo Nagore

10:00-11:00 Lymph Node Surgery

David Moreno

11:00-11:30 Management of in-transit disease

David Moreno

11.30-12.00 **Coffee Break**

12:00-13:30 Melanoma Grand Round - Second Round Cases Presentation

Lara Ferrándiz, Almudena Fernández

13:30-15:30 Ultrasonography Workshop Lunch

Lara Ferrándiz, Almudena Fernández

15.30-17:00 Exchanging Experiences about Melanoma Care in Europe

Lara Ferrándiz & all

17:00-17:30 Day 2 - Final Remarks

David Moreno

20:00-22:00 Networking event with faculty members and participants at "Flores Gourmet"

Friday, 10 March 2023

Systemic therapy of advanced malignant melanoma

09:00-11:00 Immunotherapy & Targeted Therapies. Outcomes and practical management

Lara Ferrándiz

11:00-11:30 **Coffee Break**

11:30-12:30 Integrating melanoma treatments in clinical practice

David Moreno

12:30-13:00 Take Home and Closing Messages
