

Pregnancy Dermatology

Residents and Specialists Course | 21-23 September 2023 | Lisbon, Portugal

Faculty

Course Chair: Linda Martin

Speakers: Wendy Carseldine, Robert Muellegger, Jenny Murase, Julia-Tatjana Maul,
Antoine Bertolotti

Tutor: Samantha Vaughan-Jones

Assistant: Eglè Janušonytė

Course Description

This comprehensive course with a multidisciplinary faculty covers all aspects of management of skin diseases in pregnancy for the Dermatologist. We cover specific dermatoses of pregnancy, inflammatory, infectious & neoplastic diseases occurring in the pregnant woman, as well as practical guidance on approach to diagnosis and appraisal of pharmacological options. Knowledge is gained in pre-conception counselling, prenatal diagnosis and breastfeeding dermatology.

Learning Objectives

1. Evaluate the safety of medications in pregnant and breastfeeding women, including international classification systems and consideration of individual risk:benefit ratio.
2. Apply approaches to differential diagnosis and investigation of skin disease in the pregnant woman.
3. Understand the role and responsibilities of the dermatologist within the multi-disciplinary team.
