

SUMMER WORKSHOP: DERMATOPATHOLOGY

Residents and Specialist Course | 21-25 August 2023 | Ghent, Belgium

Course Description

Dermatopathology offers a basic training in inflammatory, tumoral and molecular pathology for dermatologists. The course will allow dermatologists to acquire a good basic knowledge in dermatopathology together with some important updates in the field of molecular dermatopathology and clinicopathological correlation. Lectures by world-renowned experts in the field of dermatopathology will alternate with interactive practical sessions by the microscope.

Learning objectives

1. Provide basic dermatopathology knowledge for clinical practice with focus on the importance of clinicopathological correlation
2. Provide basic training in molecular pathology for dermatologists
3. Stimulate interaction between clinical dermatologists and dermatopathologists

Faculty

Chair: Sofie de Schepper

Speakers: Karolien Van Den Bossche; Julie Lemahieu; Maxime Battistella; Janine Wechsler; Marijke Van Dijk; Eduardo Calonje; Maria Teresa Fernandez Figueres; Mar Llamas Velasco; Willeke Blokk

Tutors: Marc-Cyriel-Marie Haspeslagh; Catherine M. Stefanato

PROGRAMME

Monday, 21 August 2023

8:30 -8:45	Welcome and introduction - Sofie De Schepper
8:45 – 10:45	Workshop basic dermatopathology - Marijke Van Dijk
10:45 – 11:15	Coffee break
11:15 – 11:45	Interface pattern (+lichenoid pattern) + cutaneous drug reactions Marc Haspeslagh
11:45 – 12:15	Psoriasiform pattern – Marc Haspeslagh
12:15 – 12:45	Spongiotic pattern -Marc Haspeslagh
12:45-14:00	Lunch
14:00-14:45	Panniculitis - Janine Wechsler
14:45- 15:30	Vasculitis and vasculopathy - Janine Wechsler

Tuesday, 22 August 2023

9:00-9:45	Pustular dermatoses - Eduardo Calonje
9:45-10:30	Granulomatous disorders - Eduardo Calonje
10:30-11:00	Coffee Break
11:00-12:00	Ex vivo dermoscopy and dermatology - Julie Lemahieu
12:00-13:00	Lunch Break
13:00-16:00	Hints and clues in dermatopathology: cases by the microscope Marc Haspeslagh

Wednesday, 23 August 2023

- 8:30- 9:30 Subepidermal and acantholytic disorders - Sofie De Schepper
9:30-10:00 Superficial and deep perivascular dermatitis - Karolien Vandenbossche
10:00-10:30 Mucosal dermatopathology- Karolien Vandenbossche
10:30-11:00 **Coffee Break**
11:00-12:00 Molecular techniques in dermatopathology – Julie Lemahieu
12:00-12:30 Digital Pathology - Marijke Van Dijk
12:30-14:00 **Lunch Break**
14:00-16:30 The importance of clinicopathological correlation: case presentation
Sofie De Schepper and Marc Haspeslagh
- 19:00 **Networking Dinner**

Thursday, 24 August 2023

- 8:30- 9:00 Melanocytic tumors – Willeke Blockx
9:00-9:30 Diagnosis of melanocytic lesions in daily practice- Willeke Blockx
9:30-10:00 Non-melanocytic tumors - Maria Teresa Fernandez Figueres
10:00-10:30 Fibrohistiocytic/Fibrous tumors- Maria Teresa Fernandez Figueres
10:30-11:15 **Coffee Break**
11:15-11:45 Adnexal tumors – Maxime Battistella
11:45-12:30 Cutaneous T-cell lymphomas – Maxime Battistella
12:30-13:00 Cutaneous B-cell lymphomas and other cutaneous lymphomas and leukemias-
Maxime Battistella
13:00-14:30 **Lunch Break**
14:30-16:30 Slide viewing by the microscope (Maria Teresa Fernandez Figueres, Maxime
Battistella)

Friday, 25 August 2023

- 8:30- 9:15 Vascular tumors – Mar Llamas Velasco
9:15-10:00 Nerve sheath and neuroectodermal tumors – Mar Llamas Velasco
10:00-10:30 **Coffee Break**
10:30-11:00 Hair pathology - Catherine M. Stefanato (Remote)
11:00-11:30 Nail Pathology- Catherine M. Stefanato (Remote)
11:30-12:30 QUIZ: what have we learned this week? Sofie De Schepper + all
12:30-13:30 **Lunch Break**
13:30-16:00 QUIZ: what have we learned this week? Sofie De Schepper + all

The programme might be subject to changes.
