

Dermoscopy

Summer Workshop

Residents and Specialists Course | 28 August-01 September 2023 | Vis Island, Croatia

COURSE DESCRIPTION

The course will provide the analytic learning of dermoscopy with the implementation of specific vocabulary used in dermoscopy, as well as the adequate use of different types of dermoscopic devices. Participants will learn dermoscopic criteria, rules and algorithms for diagnosing various benign and malignant skin lesions, as well as inflammatory dermatoses, including trichoscopy and onychoscopy. Each day of the course many interactive cases will be analyzed and discussed with participants following each new topic. Course will include a pre- and post teaching evaluation.

LEARNING OBJECTIVES

1. Learn dermoscopic features and algorithms, differentiate melanocytic from non-melanocytic lesions of the skin and mucous membranes, detect suspicious skin lesion, determine the lesion that needs to be removed from the ones that do not or just need follow up.
2. Learn how and when to use digital dermoscopy
3. Apply the acquired knowledge in dermoscopy in everyday practice, both in diagnosing skin tumours and inflammatory dermatoses
4. Apply dermoscopy in diagnosing dermatological conditions on the skin, mucous membranes, nail unit and scalp.

FACULTY

Chairs: Marija Buljan, Sanja Poduje

Speakers: Iris Zalaudek, Elvira Moscarella, Luc Thomas, Susana Puig, Edith Arzberger, Bianca Maria Piraccini, Camila Scharf, Konstantinos Liopyris

Tutors: Nika Filipović, Hrvoje Brajčić, Martina Mihalj

PROGRAMME

Monday, 28 August 2023

09.00-09.30	Welcome from the School chairs – <i>Marija Buljan, Sanja Poduje</i>
09.30-09.50	Introduction to dermoscopy – <i>Sanja Poduje</i>
09.50-10.10	Dermoscopy in clinical practice – <i>Marija Buljan</i>
10.10-11.00	Pre-Test (30 Dermoscopy Cases) – <i>Marija Buljan, Sanja Poduje</i>
11.00-11.30	Coffee break
11.30-12.20	Dermoscopic structures and histopathologic correlations-(melanocytic and nonmelanocytic lesions) - <i>Camila Scharf</i>
12.20-13.00	Dermoscopy of nevi - <i>Konstantinos Liopyris</i>
13.00-13.45	Dermoscopy of melanoma - <i>Camila Scharf</i>
13.45-14.45	Lunch break
14.45- 15.30	Practical part (dermoscopy of melanocytic lesions): Cases and interactive analysis - <i>Camila Scharf, Konstantinos Liopyris</i>

Tuesday, 29 August 2023

09.00-09.15	Two-step procedure in dermoscopy – <i>Elvira Moscarella</i>
09.15-10.00	Dermoscopy of non-melanoma skin cancers (AK, Mb Bowen, KA, SCC) – <i>Elvira Moscarella</i>
10.00-10.30	Dermoscopy of vascular structures – <i>Elvira Moscarella</i>
10.30-11.00	Practical part (NMSC): Cases and interactive analysis – <i>Elvira Moscarella</i>
11.00-11.30	Coffee break
11.30-12.30	Dermoscopy in general dermatology – <i>Konstantinos Liopyris</i>
12.30-13.00	Practical part (dermoscopy in general dermatology): Cases and interactive analysis – <i>Konstantinos Liopyris</i>
13.00-14.00	Lunch break
14.00-15.00	Participants' case presentations: Part I
15.30- 16.30	Practical part: Examinations of local inhabitants at the Community health centre - GROUP A – <i>Marija Buljan, Sanja Poduje</i> <i>(Please, bring your own white coats!)</i>
20.00-22.00	Networking dinner with faculty members and participants at the “Villa Kaliopa” restaurant

Wednesday, 30 August 2023

09.00-09.50	Dermoscopy of acral lesions (and dermoscopy in the surgery room) – <i>Luc Thomas</i>
09.50-10.10	Advantages and limitations of digital dermoscopy – <i>Luc Thomas</i>
10.10-10.30	Artificial intelligence in dermatology: Current status and perspectives – <i>Luc Thomas</i>
10.30-11.00	Practical part (dermoscopy of acral lesions): Cases and interactive analysis - <i>Luc Thomas</i>
11.00-11.30	Coffee break
11.30-11.50	What is revised pattern analysis/Does terminology matter? – <i>Susana Puig</i>
11.50-12.30	Dermoscopy of mucosal lesions (with interactive practical cases) – <i>Susana Puig</i>
12.30-13.00	Melanoma: imaging, genetics and immunology – <i>Susana Puig</i>
13.00-14.00	Lunch break
14.00-15.30	Participants' case presentations: Part II
16.00-17.00	Practical part: Examinations of local inhabitants at the Community health centre - GROUP B – <i>Marija Buljan, Sanja Poduje</i> <i>(Please, bring your own white coats!)</i>

Thursday, 31 August 2023

- 09.00-09.40 Dermoscopy of blue and spitzoid lesions – *Iris Zalaudek*
09.40-10.10 Dermoscopy of lesions on the face – *Iris Zalaudek*
10.10-10.30 Dermoscopy management clues – *Iris Zalaudek*
10.30-11.00 **Practical part (blue, spitzoid, face lesions):**
Cases and interactive analysis – *Iris Zalaudek*
- 11.00-11.30 **Coffee break**
11.30-12.30 Basic aspects of trichoscopy – *Bianca Maria Piraccini*
12.30-13.00 **Practical part (trichoscopy):**
Cases and interactive analysis – *Bianca Maria Piraccini*
- 13.00-14.00 **Lunch break**
14.00-14.20 Dermoscopic variations regarding age and skin type – *Edith Arzberger*
14.20-15.00 Teledermatology, teledermoscopy and the use of Reflectance Confocal Microscopy in dermatology – *Edith Arzberger*
15.00- 15.30 **Practical part:**
Cases and interactive analysis – *Edith Arzberger*
15.30-16.45 Participants' case presentations: Part III

Friday, 01 September 2023

- 09.00-09.45 Interesting cases from everyday practice and interactive analysis –
Marija Buljan, Sanja Poduje
09.45-10.00 The announcement of the best participants' cases
10.00-10.30 **Coffee break**
10.30-11.30 60-Point (Post) Test with Interactive analysis of test results – *Marija Buljan, Sanja Poduje*
11.30-12.00 Closing remarks (Take home messages) – *Marija Buljan, Sanja Poduje*

The programme might be subject to changes
