

Supportive Oncodermatology

Specialists and Residents Course | 9-11 May 2024 | Pozzuoli - Naples, Italy

Description

Supportive oncodermatology is a dermatology specialty focused on caring for cancer patients who experience dermatologic reactions, whether pre-existing or resulting from oncologic therapy. This comprehensive course is dedicated to the prevention, early detection, and management of dermatologic adverse reactions associated with both modern and traditional cancer therapies. Our program provides the essential knowledge and practical skills needed to improve in the care of cancer patients. By mastering the principles of supportive oncodermatology, you can significantly improve a patient's quality of life and, equally important, reduce the risk of unwarranted interruptions in life-saving oncologic treatments. This course stands out for its dynamic approach, driven by real clinical cases that reflect the complexities encountered in practice. Additionally, the best clinical practices in supportive oncodermatology will be discussed, ensuring that you're equipped to provide the highest level of care and support to cancer patients. Join us in this transformative journey to enhance your expertise in the field of supportive oncodermatology and make a positive impact on cancer patient outcomes.

Learning Objectives

The main learning objectives of this course are:

1. Prevention of acute dermatologic reactions (skin, hair, and nails reactions)
2. Management of the most common acute dermatologic adverse reactions of oncologic therapies
3. Raise awareness and to improve management of persistent dermatologic adverse reactions after oncologic therapies.

Faculty

Course Chair: Azael Freites-Martinez

Speakers: Vincent Sibaud, Davide Fattore, Zoe Apalla, Michela Starace

Guest Speakers: Luigi Formisano, John McNorton

Tutors: Pietro Sollena, Maria Carmela Annunziata, Ariadna Ortiz Bruges

Programme

Thursday, 9 May 2024

15:00-15:15	Course introduction <i>Azael Freites-Martinez and Vincent Sibaud</i>
15:15-15:45	Auto-evaluation <i>All participants</i>
15:45-16:15	The EADV Task Force of Dermatology for Cancer Patients, and grading systems of adverse reactions <i>Azael Freites-Martinez</i>
16:15-16:30	Coffee Break
16:30-17:00	What Dermatologists Should Know about Managing the Most Prevalent Cancers <i>Luigi Formisano</i>
17:00-17:30	Most common dermatologic reactions induced by the main oncologic therapies <i>Davide Fattore</i>
17:30-18:15	Hair disorders in cancer patients <i>Michela Starace</i>

Friday, 10 May 2024

09:00-10:00	Hair disorders in cancer survivors <i>Azael Freites-Martinez</i>
10:00-10:50	Macular, maculopapular and acneiform rashes <i>Davide Fattore</i>
10:50-11:40	Psoriasiform and lichenoid reactions, and itch in cancer patients <i>Zoe Apalla</i>
11:40-12:00	Coffee Break
12:00-12:50	Let's focus on patients with dermatologic cancer receiving systemic oncologic therapy (melanoma and more) <i>Vincent Sibaud</i>
12:50-13:30	Mucosal reactions and severe dermatologic reactions in cancer patients: TEN, SJS, bullous disorders <i>Zoe Apalla</i>
13:30-14:00	Available preventative strategies for dermatologic adverse reactions related to cancer therapies <i>Davide Fattore</i>
14:00-15:00	Lunch Break
15:00-16:00	Nail disorders in cancer patients and cancer survivors <i>Michela Starace</i>
16:00-16:30	Novel cancer therapies and new adverse reactions <i>Vincent Sibaud</i>
16:30-16:50	Dermatologist involved in care of oncologic patients: our approach <i>Azael Freites-Martinez</i>
16:50-17:05	Coffee Break
17:05-17:35	Radiation-induced adverse reactions <i>Vincent Sibaud</i>

- 17:35-18:05 Pigmentation disorders in cancer patients and cancer survivors
Michela Starace
- 18:05-18:35 Patient perspective of dermatologic adverse reactions caused by
cancer therapies: Patient Advocacy
John McNorton

20:30 - 23:00 Networking dinner with participants and speakers

Saturday, 11 May 2024

- 9:00-11:00 Cases from all residents and discussion with professors
All participants
- 11:00-11:30 Coffee Break
- 11:30-13:00 Meet the patient: a practical approach
All professors
- 13:00-13:15 Auto-evaluation
All participants
- 13:15-13:30 Closing remarks and **Prof. Gabriella Fabbrocini Award**
Azael Freites-Martinez
