

Advanced Surgery

Specialists Course | 14-16 November 2024 | Rome, Italy

Course description

The Advanced Surgery course is designed to teach flap and graft techniques specific to various anatomical locations of primary defects. The course includes practical sessions on pigs to ensure proper surgical performance. The first focuses on theoretical preparation, setting the stage for the hands-on practice over the following 2 days. This highly interactive session allows participants to observe different experts performing the same techniques, sharing various tips and tricks.

Learning Objectives

1. Anatomy of the face and danger zones
2. Knowledge of reconstruction based on the side of the defect and anatomical location
3. Practical execution of variations of fusiform excisions, flaps and grafts

Faculty

Chairs: Elena Rossi

Speakers: Roland Kaufmann, Myrto Trakatelli, Olivier Cogrel, Chrysalynne Schmults

Tutors: Simone Michelini, Mihaela Costache, Anouschka Kul

Programme

Thursday, 14 November 2024

- 13:30-14:00 Introduction
Elena Rossi
- 14:00-14:30 Current guidelines
Chrysalynne Schmults
- 14:30-15:00 Grafts
