

# Injectables: Toxin and Fillers

Specialists Course | 12-13 April 2025 | Istanbul, Türkiye

## **Description**

This two-day educational programme is designed specifically for dermatology specialists, offering a comprehensive blend of theoretical learning and practical application. The course features a series of in-depth lectures on the first day, followed by demonstrating sessions on the second day.

The goal is to provide a course that enhances knowledge and sharpens practical skills, empowering participants after specialization to apply new techniques with confidence.

## **Learning Objectives**

1. Gain and enhance understanding about the frequent use of toxins and fillers in cosmetic dermatology.
2. Acquire detailed knowledge of anatomy relevant to cosmetic dermatology.
3. Master the technical aspects of injection procedures.
4. Learn about potential complications and identify strategies to effectively manage and mitigate them.
