

Mohs Surgery in Vivo

Residents & Specialists Course | 10-12 July 2025 | Madrid, Spain

Description

This Mohs surgery course for dermatologists provides training for residents or specialists initiating in the technique. Participants will learn to identify cancerous tissues, perform microscopic examination, and understand the basics of a technique that achieves high cure rates while preserving healthy tissue. The course includes hands-on practice, lectures, and discussions on technique, pathology, and patient care.

Learning objectives:

- **Understanding Mohs Surgery Indications and Techniques:** Participants will be able to identify the appropriate indications for Mohs micrographic surgery and demonstrate a thorough understanding of the surgical techniques involved in the procedure, including tissue mapping, layer removal, and histological examination.
- **Tissue Handling and Slide Preparation:** Participants will acquire the skills necessary to properly handle and prepare tissue specimens for histological examination during Mohs surgery, ensuring accurate margin control and effective tumour removal.
- **Postoperative Management and Complication Prevention:** The course will enable participants to effectively manage postoperative care for Mohs surgery patients, including wound care, patient education, and the identification and prevention of potential complications such as infection, scarring, and recurrence of skin cancer.

Faculty

Chairs: Pedro Rodriguez-Jimenez, Javier Vicente

Speakers: Yolanda Delgado, John Paoli, Tomás Toledo

Tutors: Ana Belén Enguita (Pathology), Javier Buendía (Plastic Surgery),
Daciano Gaona (Anesthesia)

Programme

Thursday, 10 July 2025

(Auditorium)

14:30-15:00	Participant Registration and Welcome
15:00-15:15	Introduction to the course <i>Pedro Rodríguez</i>
15:15-16:00	Fundamentals and techniques. <i>Tomás Toledo</i>

16:30-17:00	Coffee Break
17:00-18:00	Anesthesia in the Mohs Surgery patient. Local vs “sedation” <i>Daciano Gaona and John Paoli</i>
18:00-18:30	Normal cutaneous histology for Mohs surgery and simulators <i>Ana Belén Enguita</i>

Friday, 11 July 2025

(Auditorium and surgery room)

-
- 09:00-09:30 Slow Mohs
Javier Vicente
- 09:30-10:00 Beyond the first stage of Mohs
John Paoli
- 10:00-10:30 Coffee break
- 10:30-12:30 Tissue cutting in animal pieces and cryostat
All
- 12:30-13:30 Lunch break
- 13:30-14:00 Managing challenging Non-Melanoma Tumours
Yolanda Delgado
- 14:00-14:30 Advanced reconstructions for dermatologists
Javier Buendía
- 14:30 -15:00 Principles of surgical reconstruction
Tomás Toledo
- 15:00-15:30 Coffee break
- 16:00-18:40 Mohs in Vivo in Surgical room (x2)
All
- 20:00-22:00 Networking dinner with speakers and participants

Saturday, 12 July 2025

(Auditorium)

-
- 09:00-09:30 Anatomical danger zones
Yolanda Delgado
- 09:30-10:00 Dermatofibrosarcoma protuberans and other rare tumours
Javier Vicente
- 10:00-10:30 Coffee Break
- 10:30-11:15 Challenging cases
Yolanda Delgado, Javier Vicente, Pedro Rodríguez
- 11:15-12:45 Competition of clinical cases presentations
All Residents
- 12:45-13:15 Quiz & auto-evaluation
All
- 13:15-13:20 End of course and farewell
Pedro Rodríguez, Javier Vicente

The programme might be subject to changes.
