

Wound Healing

Residents & Specialists Course | 02-04 December 2025 | Pisa, Italy

Description

The programme of this interactive course provides dermatologists a comprehensive knowledge update on chronic and acute wounds that participants will be able to incorporate into their practice. A panel of experts will address the clinical spectrum of vascular, diabetic, pressure, cancer, post-surgical and atypical wounds and their treatment. The course will give practical information regarding diagnostic methods and evaluation of test results. It will also include standard and advanced therapeutic protocols, with tips and tricks to increase patient compliance and therapeutic outcome in specific communities. The training will serve as an excellent platform to share knowledge and to exchange experiences from daily practice.

Participants are also invited to contribute actively and present their own case reports. Meeting colleagues from all over Europe in an open atmosphere will offer a unique opportunity for networking and to become acquainted with the EADV community.

Learning Objectives

- 1) Refresh and update the knowledge on chronic and acute cutaneous wounds
- 2) Gain practical information on diagnostics, sampling and evaluation of test results
- 3) Learn about therapeutic patient options: tips and tricks to increase patient compliance and therapeutic outcome
- 4) Exchange of professional experiences through case studies presented by participants

Faculty

Chair: Marco Romanelli

Speakers: Anne Dompokmartin, Jurg Hafner, Valentina Dini, Kirsi Isoherranen

Tutors: Teresa Oranges, Agata Janowska, Giammarco Granieri
