

Programme at a glance

The scientific programme is organised on full or half-day tracks; each track has a specific topic and a structured programme.

Session formats

Plenary sessions: Plenary lectures are EADV showcase sessions and include key-note lectures delivered by eminent scientists and doctors.

Focus on: These sessions aim at providing comprehensive in-depth coverage of a certain topic in dermatology. The talks will be included in sessions on pathophysiology / epidemiology, clinical challenges, or practical aspects of disease management and will provide the latest cutting-edge information.

What's new: These sessions will enable participants to update their knowledge on a specific topic and hear about the most relevant and recent developments, guidelines and practical knowledge from the past year. The talks will summarize the current understanding of the subject, followed by an update on the most recent novelties with their impact on clinical practice.

 **Interactive clinical cases:** These lectures focus on a specific disease and include basic information about epidemiology, pathophysiology, diagnosis, management and prognosis. The target audience of these sessions is young dermatology trainees and residents, as well as dermatologists that want to refresh their basic knowledge on specific topics. The topic of each presentation should be developed from clinical cases and include clinical photographs. The main objective is to provide the audience clues for differential diagnosis and disease management in their daily practice. Each presentation is supposed to be interactive, with multiple-choice question made to the audience in accordance with the subjects treated in the talks. Each speaker will be asked to include 2-3 questions by “data” along with the different answers’ options.

 **Free communications:** Authors of the most highly-ranked abstracts assessed by a selected panel of abstract reviewers are invited to provide a 10-minute oral presentation.

Thursday 22 May 2025

FORUM HALL	SOUTH HALL 2	SOUTH HALL 1
14:00 - 15:30		
Melanoma	New targeted treatment: Inflammatory diseases	Free communications 1
15:45 - 17:15		
Keratinocytic skin cancer	New targeted treatment: Inflammatory diseases	Free communications 2
17:30 - 18:30		
Plenary session		

Friday 23 May 2025

FORUM HALL	SOUTH HALL 2	SOUTH HALL 1
09:00 - 10:30		
Adverse anti-cancer drug reactions	Dermoscopy	New targeted treatment: New technologies
10:45 - 12:15		
Hidradenitis suppurativa	Clinical-pathological correlations	New targeted treatment: Skin cancer
12:45 - 13:45		
Industry Sessions		
14:00 - 15:30		
Emergencies in dermatology	Hair and nail disorders	Viral infections: Emerging threats
15:45 - 17:15		
Regenerative medicine and aesthetics	The hot seat: Local residents quiz the international faculty	Viral infections: Onco-viruses and Herpes viruses

Saturday 24 May 2025

FORUM HALL	SOUTH HALL 2	SOUTH HALL 1
09:00 - 10:30		
Hair and Nails	Psoriasis	Viral infections: Viruses and exanthema
10:45 - 12:15		
Aesthetic dermatology	Genodermatoses	Viral infections: Viruses and drugs
12:30 - 14:00		
Paediatric dermatology	Joint EADV- IUSTI-EU Session on Venereology	Connective tissue diseases
