

Advanced STIs

Residents Course | 19-21 November 2025 | Amsterdam, The Netherlands

Description

This course is dedicated to current day issues concerning the management of patients affected by STI and is intended for residents in dermatology who want to expand their knowledge beyond the traditional scope of their specialty training.

Learning Objectives

1. Recognize complications of common STI pathogens and tools for their management
2. Introduction to the public health aspects of currently significant STI and the impact on clinical practice
3. How to best help patients belonging to key populations most affected by STI and HIV

Faculty

Chair: Henry de Vries

Speakers: Clarissa Vergunst, Rianne Teeuw, Elske Hoornenborg, Juan Carlos Galvis Martinez

Tutors: TBC
