

Comprehensive Melanoma Management in Clinical Practice From early diagnosis to advanced treatment

Combined Course (Residents + Specialists) | 4-6 March 2026 | Sevilla, Spain

Description

The “Comprehensive Melanoma Management in Clinical Practice” course offers an update on the diagnostic and therapeutic approach to melanoma patients. From early diagnosis to surgical procedures for primary and advanced melanoma to the current use of systemic therapies, the integrated management of melanoma patients is discussed during this 3-day course held in a clinical dermatology department.

The programme includes

- Update sessions on diagnostic and therapeutic topics,
- Hands-on workshops on diagnostic procedures,
- Discussion sessions on clinical cases provided/presented by the participants.
- The course also aims at sharing the experiences of other centers in the management of melanoma patients.

Finally, participants will benefit from an outstanding networking opportunity with other European dermatologists dedicated to melanoma patients' management.

Learning Objectives

Following this course, the attendee should be able to:

- ✓ Identify the morphological, genetic, and molecular bases that, applied to clinical practice, help in early diagnosis of primary melanoma and tumour metastasis.
- ✓ Gain a thorough knowledge of the onco-pathological and immunopathological bases of each of the diagnostic and therapeutic options available for melanoma patients care.
- ✓ Become familiar with the diagnostic and therapeutic procedures, both medical and surgical, currently available in clinical practice for the management of any clinical settings in melanoma patients.
- ✓ Transfer to clinical practice the knowledge acquired on early diagnosis, and medical and surgical treatment of melanoma patients.
- ✓ Make therapeutic decisions in challenging clinical situations by integrating the available therapeutic procedures and after an adequate assessment of the risks and benefits of each of the options.

Faculty

Chairs: David Moreno-Ramirez

Speakers: Lara Ferrandiz, Eduardo Nagore, Josep Malvehy, Teresa Ojeda

Tutors: Noemi Eirís, Almudena Fernández

Programme

Wednesday, 4 March 2026

Early diagnosis, genetics and biomarkers

08:30-09:00 Welcome and course presentation

09:00-10:00 Imaging procedures for malignant melanoma screening and differential diagnosis

Josep Malvehy

10:00-11:00 Melanoma Genetics and biomarkers. Clinical implications

11:00 – 11:30	Eduardo Nagore Discussions, Q&As
11:30-12:00	Coffee Break
12:00-14:30	Digital Center Workshop Lunch Teresa Ojeda, David Moreno, Noemí Eiris
14:30-15:30	Melanoma Clinical Practice Guidelines David Moreno
15.30-17:00	Melanoma Grand Round - First Round Cases Presentation Lara Ferrándiz, Almudena Fernández
17:00-17:30	Day 1 - Final Remarks David Moreno

Thursday, 5 March 2026

Surgical Approach to Melanoma Patients	
08:30-09:00	Melanoma Board Meeting Lara Ferrándiz, Almudena Fernández
09:00-10:00	Surgery for Primary Malignant Melanoma Eduardo Nagore
10:00-11:00	Management of lymph node metastasis David Moreno
11:00-11:30	Management of in-transit disease David Moreno
11:30-12:00	Coffee Break
12:00-13.30	Melanoma Grand Round - Second Round Cases Presentation Lara Ferrándiz, Almudena Fernández
13:30-15:30	Ultrasonography Workshop Lunch Lara Ferrándiz, Almudena Fernández
15.30-17:00	Exchanging Experiences about Melanoma Care in Europe Lara Ferrándiz & participants
17:00-17:30	Day 2 - Final Remarks David Moreno
20:00-22:00	20:00-22:00 Networking event with faculty members and participants at "Flores Gourmet"

Friday, 6 March 2026

Systemic therapy of advanced malignant melanoma	
09:00-11:00	Immunotherapy & Targeted Therapies. Outcomes and practical management Lara Ferrándiz
11.00-11.30	Coffee Break
11:30-12:30	Integrating melanoma treatments in clinical practice David Moreno
12:30-13:00	Take Home and Closing Messages

The programme might be subject to changes.
