Industry sessions

The EADV Industry Partners organize several sessions as an adjunct to the EADV Scientific Sessions. The sessions are organized by the companies and feature presentations by experts in the field, panel discussions and other type of sessions.

The industry sessions are a valuable way to learn about new research, techniques or treatments in the field of dermatology and venereology. In addition, some sessions will focus on sharing information about new products, services and/or technologies available.

At the EADV Congress, 2 different types of industry sessions are organized:

Satellite symposia	Industry expert hubs
Satellite symposia are organized in the main session rooms and take place during the morning, lunch breaks and after the last session of the day. These sessions last between 45, 60 and 90 minutes and offer a wider education on the presented topic to remain updated on any progression in the field	Industry expert hubs are organized in Pavilion 7.2.1 of the Paris Expo Porte de Versailles. These sessions last 45 minutes and are focused on bringing together a smaller group of experts to discuss more in-depth or to focus on a specific topic

Industry sessions programme

The industry session organiser is solely responsible for keeping any of its industry sessions activities compliant with all relevant laws and regulations. EADV is not involved with in or have any control over the content, quality, organization, operation, scientific integrity of the activity and materials. EADV will not be involved in the selection of speakers, moderators and other faculty.

Access to industry sessions

As a multidisciplinary audience will be attending the EADV Congress 2025, please make sure to select the right category, Healthcare Professionals (HCPs) and Non-Healthcare Professionals (NON-HCPs), during the registration process. Access to any industry sessions where data or research of prescription medicines is presented will be limited exclusively to Healthcare Professionals (HCPs) and Non Members (INDUSTRY).

Industry session organisers may limit participation to certain representative groups independently from EADV recommendations if deemed imperative to the achievement of the intended purpose of the Industry session.

Please note that exhibitor tickets allow access only to industry sessions organised by the same company. Access to all industry session of other companies is not allowed.

Satellite Symposia - Programme at a glance

Wednesday, 17 September 2025

Room	Lunch symposia 13:00 - 14:00	
S03	SAT 4.01	Johnson & Johnson (Early intervention in Psoriasis and Psoriatic Arthritis)
S05	SAT 5.01	Regeneron Pharmaceuticals, Inc. (Immunotherapy in High-risk Squamous Cell Carcinoma)
S02	SAT 6.01	Sanofi and Regeneron Pharmaceuticals (Bullous Pemphigoid)
S01	SAT 8.01	Kenvue (Gen Z, Pre-aging trends and collagen banking)
W03-W04	SAT 10.01	VICHY LABORATOIRES & L'OREAL RESEARCH & INNOVATION (Longevity science: Turning research into anti-aging solutions) No access to INDUSTRY badges
W05-W06	SAT 11.01	Novartis Pharma AG (Early intervention in PsO)

Access restricted to
healthcare professionals
(HCPs) and INDUSTRY
badges.

Session open to
all

Session open to
