

## Mohs micrographic surgery, a tool in skin cancer treatment

Combined Course (Residents + Specialists) | 5-7 June 2026 | Bucharest, Romania

### Description

Three days of course with live surgery demonstration. Organization of the Mohs laboratory  
Indications of the Mohs micrographic surgery method. Reconstruction on anatomical areas.  
How to avoid complications.

### Learning Objectives

Following this course, the attendee should be able to:

- ✓ Understanding the Mohs micrographic surgery method.
- ✓ Variability of tumor extension in skin cancer.
- ✓ Reconstruction of defects resulting from skin tumor surgery
- ✓ To learn the indications of Mohs micrographic surgery (MMS)
- ✓ To learn the Principles of MMS
- ✓ To understand how is organized a Mohs department (equipment, documentation and workflow)
- ✓ To understand the histologic aspects of skin tumors, vertical sections vs horizontal sections
- ✓ To exercise a map of MMS
- ✓ To learn how to manage an oncologic case with indication for MMS
- ✓ Surgical solutions for different types of tumors
- ✓ To avoid surgical complications/ danger zones

### Faculty

Chairs: Mihaela Leventer

Speakers: Glenn Goldman, Jürg Hafner, Joseph Alcalay, Leonardo Marini, Sasha Krunich

Tutors: Tiberiu Tebeica, Anca Stanciu, Laura Banciu

### Programme

#### Friday, 5 June 2026

---

8.30-9.00	Registration
9.00-9.15	Welcome; How is organized a Mohs unit Mihaela Leventer
9.15-9.30	When and why is indicated Mohs surgery Jürg Hafner
9.30-10.00	Cases discussions before surgery (tumor board) Clinic's Team
10.00-10.30	Coffee Break
10.30-11.00	What happens in the surgery room What happens in the histopathology lab Leonardo Marini and Tiberiu Tebeica
11.00-13.00	What is the final result after Mohs Surgery/ reconstructions aspects All Speakers
13:00-14:00	Light Lunch

14:00-16:00	Practical experience from the surgeries rooms and lab All Speakers
16:00-16:30	Coffee Break
16:30-18:00	Following experience of the day, different reconstruction options on the affected areas Clinic's Team
18:00-18:15	Short Quiz for participants about histopathology on frozen sections Tiberiu Tebeica

### **Saturday, 6 June 2026 (live surgery from OR and histopathology discussions )**

---

8:00-10:00	Live Mohs surgery, histopathology for skin tumors presentations Aleksandar Krunic
8.30-9.00	Basic Mohs technique from the perspective of histology laboratory Leonardo Marini
9.00-9.30	Indications for Mohs surgery based on histologic subtype and anatomic location of cutaneous tumors Jürg Hafner
9.30-10.00	Histopathology of cutaneous tumor - vertical section vs. horizontal section approach (Mohs pathology) Alkalay Joseph
10:00-10:30	Coffee Break
10:30-13:00	Tips and tricks in the histopathology of skin tumors. Tebeica Tiberiu
13:00-14:00	Light lunch
14:00-16:00	How to avoid complications in skin surgery? How to manage complications? All Speakers
16:00-16:30	Coffee break
16:30-18:00	Difficult cases, difficult reconstructions. When should we refer the case? Joseph Alkalay
19:00-22:00	Networking event with faculty members and participants

### **Sunday, 7 June 2026**

---

9:00-9:30	How to organize a Mohs department? How to start being Mohs Surgeon? Leventer Mihaela
9:30-9:40	Mohs fellowship in EU and advantages to be ESMS member. Jürg Hafner
9:40-11:00	Participants short clinical presentations
11:00-12:00	Rehearsal of most important practical procedures in Mohs micrographic surgery. Close of the course. Leventer Mihaela and Leonardo Marini

*The programme might be subject to changes.*
