

# Supportive Oncodermatology

Combined Course (Residents + Specialists) | 10-12 September 2026 | Naples, Italy

## Description

Supportive oncodermatology is a dermatology specialty focused on caring for cancer patients who experience dermatologic reactions, whether pre-existing or resulting from oncologic therapy. This comprehensive course is dedicated to the prevention, early detection, and management of adverse dermatologic reactions associated with both modern and traditional cancer therapies. Our program provides the essential knowledge and practical skills needed to improve in the care of cancer patients. By mastering the principles of supportive oncodermatology, you can significantly improve a patient's quality of life and, equally important, reduce the risk of unwarranted interruptions in life-saving oncologic treatments. This course stands out for its dynamic approach, driven by real clinical cases that reflect the complexities encountered in practice. Additionally, the best clinical practices in supportive oncodermatology will be discussed, ensuring that you're equipped to provide the highest level of care and support to cancer patients. Join us in this transformative journey to enhance your expertise in the field of supportive oncodermatology and make a positive impact on cancer patient outcomes.

## Learning Objectives

Following this course, the attendee should be able to:

- ✓ Prevention of acute dermatologic reactions (skin, hair, and nails reactions)
- ✓ Management of the most common acute dermatologic adverse reactions of oncologic therapies
- ✓ Raise awareness and improve management of persistent dermatologic adverse reactions after oncologic therapies.

## Faculty

Chairs: Azael Freites-Martinez

Speakers: Vincent Sibaud, Zoe Apalla, Davide Fattore, Michela Starace, Pietro Sollena

Tutors: Maria Carmela Annunziata, Luca Rapparini, Maha El Barch

Guest: Luigi Formisano, Barbara Intorto

## Programme

### Thursday, 10 September 2026

---

15:00-15:15	Course introduction Azael Freites-Martinez and Vincent Sibaud
15:15-15:45	Auto-evaluation All participants
15:45-16:15	The EADV Task Force of Dermatology for Cancer Patients, and grading systems of adverse reactions Azael Freites-Martinez
16:15-16:30	Coffee Break
16:30-17:00	What dermatologists should know about the management of the most prevalent cancers in the world: breast, lung, prostate, colon, and... melanoma Luigi Formisano
17:00-17:30	Most common dermatologic reactions induced by the main oncologic therapies Davide Fattore

17:30-18:15 Hair disorders in cancer patients  
Michela Starace

### Friday, 11 September 2026

---

09:00-10:00 Hair disorders in cancer survivors  
Azael Freites-Martinez

10:00-10:50 Macular, maculopapular and acneiform rashes  
Davide Fattore

10:50-11:40 Psoriasiform and lichenoid reactions, and itch in cancer patients  
Zoe Apalla

11:40-12:00 **Coffee Break**

12:00-12:50 Let's focus on patients with dermatologic cancer receiving systemic oncologic therapy (melanoma and more)  
Vincent Sibaud

12:50-13:30 Mucosal reactions and severe dermatologic reactions in cancer patients: TEN, SJS, bullous disorders  
Zoe Apalla

13:30-14:00 Available preventative strategies for dermatologic adverse reactions related to cancer therapies  
Davide Fattore

14:00-15:00 **Lunch Break**

15:00-16:00 Nail disorders in cancer patients and cancer survivors  
Michela Starace

16:00-16:30 Novel cancer therapies and new adverse reactions  
Pietro Sollena

16:30-16:50 Radiation-induced adverse reactions  
Vincent Sibaud

16:50-17:05 **Coffee Break**

17:05-17:35 CDK4/6 inhibitors adverse reactions  
Pietro Sollena

17:35-18:05 Pigmentation disorders in cancer patients and cancer survivors  
Michela Starace

18:05-18:35 Patient perspective of dermatologic adverse reactions caused by cancer therapies: Patient Advocacy  
Barbara Intorto

20:30-23:00 **Networking event with faculty members and participants**

### Saturday, 12 September 2026

---

08:00-09:30 Cases from all residents and discussion with professors  
All participants

09:30-10:00 **Coffee Break**

10:00-11:30 Meet the patient: a practical approach  
All professors

11:30-11:45 Auto-evaluation  
All participants

11:45-12:00 Closing remarks and Prof. Gabriella Fabbrocini Award  
Azael Freites-Martinez

*The programme might be subject to changes.*
