

Dermoscopy Summer Workshop

Residents Course | 30 Aug-03 Sep 2027 | Vis, Croatia

Description

The course will provide the analytic learning of dermoscopy with the implementation of specific vocabulary used in dermoscopy, as well as the adequate use of different types of dermoscopic devices. Participants will learn dermoscopic criteria, rules and algorithms for diagnosing various benign and malignant skin lesions, as well as inflammatory dermatoses, including trichoscopy and onychoscopy. Each day of the course many interactive cases will be analyzed and discussed with participants following each new topic. Course will include a pre- and post-teaching evaluation.

Learning Objectives

1. Understand dermoscopic features and algorithms, differentiate melanocytic from non-melanocytic lesions of the skin and mucous membranes, detect suspicious skin lesion, determine the lesion that needs to be removed from the ones that do not or just need follow-up.
2. Master how and when to use digital dermoscopy
3. Apply the acquired knowledge in dermoscopy in everyday practice, both in diagnosing skin tumours and inflammatory dermatoses
4. Implement dermoscopy in diagnosing dermatological conditions of the skin, mucous membranes, nail unit and scalp.

Faculty

Chairs: Marija Buljan, Sanja Poduje

Speakers: Susana Puig, Josep Malvehy, Luc Thomas, Caterina Longo, Elvira Moscarella, Sergio Vano, Claudio Conforti, Pawel Pietkiewicz

Tutors: to be determined

Programme

Monday, 30 August 2027

09:00-09:30	Welcome and introduction Marija Buljan, Sanja Poduje
09:30-09:50	Introduction to dermoscopy Sanja Poduje
09:50-10:10	Dermoscopy in clinical practice Marija Buljan
10:10-11:00	Pre-test (30 dermoscopy cases) Marija Buljan, Sanja Poduje
11:00 – 11:30	Coffee Break

11:30-12:20	Dermoscopic structures and histopathologic correlations- (melanocytic and nonmelanocytic lesions) Pawel Pietkiewicz
12:20-13:00	Dermoscopy of nevi Claudio Conforti
13:00-13:45	Dermoscopy of melanoma Pawel Pietkiewicz
13:45-14:45	Lunch break
14:45-15:30	Practical part (dermoscopy of melanocytic lesions): Cases and interactive analysis Pawel Pietkiewicz, Claudio Conforti

Tuesday, 31 August 2027

09:00-09:15	Two-step procedure in Dermoscopy Elvira Moscarella
09:15-10:00	Dermoscopy of non-melanoma skin cancers (BCC, AK, Mb Bowen, KA, SCC) Elvira Moscarella
10:00-10:30	Dermoscopy of vascular structures Elvira Moscarella
10:30-11:00	Practical part (NMSC): Cases and interactive analysis Elvira Moscarella
11:00 – 11:30	Coffee Break
11:30-12:30	Dermoscopy in general dermatology Claudio Conforti
12:30-13:00	Practical part (Dermoscopy in general dermatology): Cases and interactive analysis Claudio Conforti
13:00-14:00	Lunch break
14:00-15:00	Participants' case presentations: Part I
15:00-16.30	Practical part: Examinations of local inhabitants at the Community Health Centre - GROUP A Marija Buljan, Sanja Poduje (Please, bring your own white coats!)
20:00-22:00	Networking dinner with speakers and participants

Wednesday, 1 September 2027

09:00-09:30	Dermoscopy of pink tumours Caterina Longo
09:30-10:00	Dermoscopy of mucosal lesions Caterina Longo
10:00-10:30	Advantages and limitations of digital dermoscopy Caterina Longo
10:30-11:00	Practical part (dermoscopy of mucosal and pink lesions): Cases and interactive analysis

	Caterina Longo
11:00 – 11:30	Coffee Break
11:30-12:30	Basic aspects of trichoscopy Sergio Vano
12:30-13:00	Practical part (trichoscopy): Cases and interactive analysis Sergio Vano
13:00-14:00	Lunch break
14:30-16:00	Practical part: Examinations of local inhabitants at the Community Health Centre - GROUP B Marija Buljan, Sanja Poduje (Please, bring your own white coats!)

Thursday, 2 September 2027

09:00-09:30	Dermoscopy of lesions on the face Susana Puig
09:30-10:10	Melanoma: imaging, genetics and immunology Susana Puig
10:10-11:00	Practical part (face lesions): Cases and interactive analysis Susana Puig, Josep Malvehy
11:00 – 11:30	Coffee Break
11:30-12:00	Teledermoscopy in dermatology, Artificial intelligence in dermatology: Current status and perspectives Josep Malvehy
12:00-12:45	Diagnostics in dermatology beyond dermoscopy (overview of the RCM, LC-OCT...) Josep Malvehy
12:45-13:45	Lunch break
13:45-15:15	Participants' case presentations: Part II
15:15-16:00	Interesting cases from everyday practice and interactive analysis Marija Buljan, Sanja Poduje

Friday, 3 September 2027

09:00-10:00	Dermoscopy of acral lesions (and dermoscopy in the surgery room) Luc Thomas
10:00-10:30	Practical part: Cases and interactive analysis (acral lesions) Luc Thomas
10:30 – 11:00	Coffee Break
11:00-11:15	The announcement of the best participants' cases
11:15-11:45	30-Point (Post) Test with Interactive analysis of test results Marija Buljan, Sanja Poduje
11:45-12:00	Closing remarks and take home messages Marija Buljan, Sanja Poduje

The programme might be subject to changes.
