

The Art of Injectables

Specialists Course | 16-18 October 2026 | Tirana, Albania

Course Description

This advanced training course is designed for doctors seeking to refine their skills in facial injectables. It covers a comprehensive full-face approach using hyaluronic acid fillers and botulinum toxin, with a focus on both basic and advanced techniques. Special attention is given to high-risk anatomical areas, ensuring safe and effective treatments.

The course includes in-depth training on injection techniques for the upper face, midface, lower face, perioral region, lips, nose, and tear troughs, using both needle and cannula. Complication management is also a key component, covering prevention, recognition, and treatment.

Through theoretical lectures, interactive discussions, live demonstrations by the speakers and hands-on activities, participants will enhance their technical expertise and confidence in facial aesthetics. Please note that participants will not directly practice the products injection.

Learning Objectives

Through theory and faculty live demonstrations participants will learn:

- To conduct proper evaluation and plan injections, according to anatomical location and needs.
- Recognize potential anatomical risks and complications and implement strategies for their prevention and management.
- Safely execute injection techniques in high-risk areas.

Faculty

Chair Brunilda Bardhi

Speakers: Konstantinos Kalokasidis, Hassan Galadari, Elena Rossi, Myrto Trakatelli

Tutors: Monika Fida, Rozana Cela

Assistants: Ela Treko, Juna Jahaj, Ermira Demiraj, Irena Savo

Programme

Friday, 16 October 2026

09:00-09:30	Registration of participants
09:30-9:45	Welcome and introduction Brunilda Bardhi
09:45-10:20	Facial anatomy for injectables: Anatomy from bone to the skin. What should be taken in consideration during the injection Elena Rossi
10:20-10:50	Danger zones for injectables on upper third of the face: How to choose the correct injection technique and avoid complications Hassan Galadari

10:50-11:20	Middle third of the Face: Detailed anatomy. How to avoid danger areas and choose the right injection techniques Konstantinos Kalokasidis
11:20-11:50	Coffee Break
11:50-13:20	Live demonstration performed by speakers All Speakers
13:20-14:10	Lunch break
14:10-14:40	Peri ocular area, anatomy and danger area of injection. How to choose the right injection techniques to avoid complications Myrto Trakatelli
14:40-15:10	How to choose the right filler and combine in different areas Brunilda Bardhi
15:10-16:10	Live demonstration performed by speakers All Speakers
16:10-16:30	Coffee break
16:30-17:10	Live demonstration performed by speakers All Speakers
17:10-17:40	Q&A and Final Remarks Brunilda Bardhi
17:40-19:00	Visit to the Venus Clinic

Saturday, 17 October 2026

09:00-09:30	Lips Injection: Anatomy How to avoid complications and create beautiful lips Hasan Galadari
09:30-10:00	Nose non-surgical Rhinoplasty: Anatomy How to avoid danger areas and create beautiful results Elena Rossi
10:00-10:30	Lower third of the Face: detailed anatomy and danger zones Konstantinos Kalokasidis
10:30-11:00	Coffee Break
11:00-11:30	Male face injection, how not to feminize and keep the ratio Myrto Trakatelli
11:30-12:00	Filler Complications: Prevention, Recognition, and Management Hasan Galadari
12:00-12:30	How to create a balanced full-face beautification and harmonization Brunilda Bardhi
12:30-13:30	Lunch break
13:30-15:30	Practical face appraisal training with live guidance. Participants will be paired and will experience split face and hands-on demonstration. Both will perform the technique as 1st and 2nd operator.
15:30-16:00	Coffee break
16:00-17:00	Practical face appraisal training with live guidance. Participants will be paired and will experience split face and hands-on demonstration. Both will perform the technique as 1st and 2nd operator

17:00-17:30 Q&A and Final Remarks
Brunilda Bardhi

19:00-22:00 Networking dinner with speakers and participants

Sunday, 18 October 2026

09:00-09:40	Botulinum toxin: Anatomy of injection upper face, patients' selection Hasan Galadari
09:40-10:20	Botulinum toxin: Anatomy of injection lower face, patients' selection Myrto Trakatelli
10:20-11:00	Types of Botulinum toxin, and other applications Brunilda Bardhi
11:00-11:20	Coffee Break
11:20-12:00	Botulinum toxin basic and advanced injections for upper face and lower face Konstantinos Kalokasidis
12:00-12:40	Types of Botulinum toxin, applications on males and females' dosage Elena Rossi
12:40-13:40	Lunch break
13:40-15:10	Live demonstration performed by speakers on Botulinum toxin injections for upper face All Speakers
15:10-15:30	Coffee Break
15:30-16:40	Live demonstration performed by speakers on Botulinum toxin injections for lower face All Speakers
16:40-17:00	Final Q&A All Speakers
17:00-17:10	Take Home and Closing Messages Brunilda Bardhi

The programme might be subject to changes.
