

Injectables: Theoretical and Practical Training on Cadavers

Specialists Course | 08-10 July 2027 | Thessaloniki, Greece

Description

This course teaches the detailed anatomy of the face related to dermal filler treatments. Learning face anatomy is essential to further improve the results of your aesthetic procedures and minimize the risk of possible complications. The course is structured in different parts to allow you the time to focus your attention sequentially on specific anatomical areas that you may be interested in. The learning experience is based on both a theoretical part as well as practical demonstrations and “hands on” applications.

Learning Objectives

1. To provide detailed training in facial anatomy,
2. To master correct and optimal administration of fillers and botulinum toxin,
3. To learn different application techniques (needle vs cannula)
4. To understand how to minimize the risk of complications

Faculty

Chairs: Myrto Trakatelli
 Speakers: Elena Rossi, Hassan Galadari, Diana Gavril
 Tutors: Styliani Siskou, TBC
 Assistants: TBC

Programme

Thursday, 8 July 2027

Theoretical session

14:00-14:20	Introduction of the course Myrto Trakatelli
14:20-14:40	Properties of hyaluronic acid: What and where Myrto Trakatelli
14:40 - 15:00	Anatomy for botulinum toxin injections Diana Gavril
15:00 - 15:20	Upper third of the face Hassan Galadari
15.20-15:40	Midface TBC
15.40-16.00	Lower third of the face Myrto Trakatelli
16:00-16:20	Coffee Break
16:20-16:40	Full face approach

	Elena Rossi, Diana Gavril
16:40–17:00	Lips Hassan Galadari
17:00–17:20	Nose TBC
17:20–17:40	Eyes TBC
17:40–18:00	Complications TBC
18:00–18:20	Practical tips for complications management TBC
18:20–18:40	Questions and answers

Friday, 9 July 2027

Practical session on human cadaver heads: each participant will have his own material to practice each technique.

09.00–11.00	Practical hands-on training
11:00–11:30	Coffee Break
11.30–13.30	Practical hands-on training
13:30–14:30	Lunch break
14:30–16:30	Practical hands-on training
16:30–17:00	Coffee Break
17:00–18:00	Practical hands-on training
17:00–19:00	Practical hands-on training
20:30– 22:30	Networking Dinner with participants and faculty members

Saturday, 10 July 2027

Practical session (patients)

09.00–11.00	Live demonstration
11:00–11:30	Coffee Break
11.30–13.30	Live demonstration
13:30	End of the course

The programme might be subject to changes.
